IMPROVED TRUSS.

It adjusts itself so perfectly to the rupture that it is impossible for it to be-come displaced.

It permits the utmost freedom of motion with perfect safety. All uncomfortable and injurious steel spring pressure is avoided. The pad is held in place by woven

bands, which retain an equal pressure in all positions of the body. It can be worn in bed, a great desideratum to the young as tending to a perfect cure.

It is the only suitable truss for children and females. The proper amount of pressure can be brought to bear and maintained in any position without pinching or harm to the wearer.
